## Luxury hotels for less

### Canopy by Hilton, Portland

Like many boutique hotels before them, Hilton's newest, **Canopy by Hilton**, is all about trendy neighbourhoods. Each one is designed to feature elements of its community, such as food, drink and culture. In each hotel guests will receive a locally-sourced welcome gift, as well as local guides and jogging routes. Properties are expected to open in late 2015/early 2016. Hotels are planned for Portland's Pearl District, London (the area is yet to be announced) and more US openings, including Nashville and Washington D.C.
